PROFESSIONAL SUMMARY

- **Motivated Full Stack Developer** with hands-on experience in *building scalable, end-to-end web applications* using **MERN Stack, ASP.NET Core, and Spring Boot**.
- **Strong frontend development skills**, focused on creating *responsive, intuitive, and user-centric interfaces* using modern JavaScript frameworks and component-based architecture.
- **Backend development expertise** in designing **RESTful APIs**, implementing *secure authentication and authorization*, and managing **database integrations** using **MongoDB and SQL-based systems**.
- Proficient in **multiple architectural patterns**, including **MVC, layered architecture, and microservices fundamentals**, ensuring *clean, maintainable, and extensible codebases*.
- Experienced in developing **production-ready applications**, with attention to *performance optimization, security best practices, and scalability*.
- **Problem-solving oriented engineer** with a strong focus on *data structures, algorithms, and real-world application development*.
- **Quick learner and adaptable team contributor**, capable of working effectively in *collaborative environments* and rapidly adopting new technologies.
- Actively seeking **internship and entry-level software engineering opportunities** to *apply technical skills, gain industry exposure, and deliver real business value*.

PROFESSIONAL EXPERIENCE

Founder

Jharkhand Model United Nations ☎

06/2024 – Present

Ranchi, India

- **Founded and led a student-run Model United Nations organization**, overseeing *strategic planning, execution, and long-term growth* of JHMUN across multiple chapters.
- **Conceptualized, organized, and managed large-scale academic conferences**, including *delegate onboarding, committee structuring, and agenda formulation*.
- **Built and managed cross-functional teams** across *operations, academics, marketing, outreach, and design*, ensuring *timely and efficient execution* of events.
- **Directed end-to-end operations**, including *registrations, delegate communications, logistics, documentation, and crisis handling*.
- **Led external communications and stakeholder engagement**, coordinating with *schools, colleges, advisors, delegates, and partners*.
- **Managed budgets, sponsorships, and financial planning**, ensuring *cost efficiency and transparent fund utilization*.
- **Developed training frameworks and academic resources** to *enhance delegate preparedness, debating skills, and diplomatic understanding*.
- **Oversaw branding, promotions, and digital presence**, driving *participant engagement and visibility* through structured outreach campaigns.
- **Ensured compliance, professionalism, and ethical standards**, maintaining *organizational credibility and participant safety*.
- **Demonstrated leadership, decision-making, and conflict-resolution skills** while working with *diverse age groups and high-pressure environments*.

Freelancer <i>Freelancing</i> - Enhanced client satisfaction by delivering high-quality work within deadlines. - Adapted quickly to changing project requirements, demonstrating flexibility and adaptability under pressure. - Developed customized solutions to address unique client needs, resulting in repeat business and referrals. - Strengthened client relationships with consistent communication and timely project updates.	04/2020 – 03/2024 Remote
Digital Intern <i>I.I.M.U.N.</i> - Maintained up-to-date knowledge on best practices within the digital marketing landscape through continuous learning and professional development. - Contributed to blog content creation by researching topics relevant to target audience demographics. - Assisted in the development of social media strategies for increased brand engagement and online presence. - Assisted in the organization and execution of virtual events, webinars, and live streams, driving audience engagement and interaction. - Participated in regular performance review meetings providing progress updates on assigned projects to team leads and supervisors. - Evaluated digital marketing tools and platforms for potential integration into existing workflows ensuring optimal performance and user experience.	08/2020 – 01/2021 Remote

PROJECTS	
Hospital-Management-System Comprehensive healthcare management solution designed to streamline hospital operations and administrative workflows Primary Technology: <i>CSS-based frontend</i> with modern web development practices Purpose: <i>Centralized platform</i> for managing patient records, appointments, and hospital resources	12/2025 – Present
Attendance-Automation-Dashboard Modern attendance tracking system built with TypeScript for type-safe development Focus: <i>Automated attendance management</i> reducing manual record-keeping overhead Dashboard interface providing real-time attendance analytics and reporting Technology Stack: <i>TypeScript-based architecture</i> ensuring code reliability and maintainability	11/2025 – 12/2025
MVVM-Notes-App Native Android application demonstrating MVVM (Model-View-ViewModel) architectural pattern Primary Language: <i>Kotlin</i> - modern Android development standard Educational project showcasing best practices in Android app architecture Purpose: <i>Note-taking application</i> with clean separation of concerns and testable codebase Architecture benefits: <i>Maintainable code</i>, easier testing, and clear data flow	07/2025 – 08/2025

Todo-Application

07/2025 – 08/2025

Kotlin

- **Task management application** for Android built with **Kotlin**
- **Functionality:** *Create, update, delete, and organize* daily tasks efficiently
- **Native Android implementation** utilizing Kotlin's concise syntax and safety features
- **Purpose:** *Productivity tool* for managing personal and professional to-do lists

Mobile-Shop-Management-System

Python

- **Complete shop management solution** built entirely in **Python**
- **Purpose:** *Inventory tracking, sales management, and customer record systems* for mobile stores
- **Open source** with **MIT License** - freely available for modification and distribution
- **Community Impact:** **2 stars** recognizing practical business application utility
- **Features:** *Stock management, billing systems, and sales analytics capabilities*

Nasa-APOD-Photo-Viewer

Java

- **Android application** leveraging **NASA's APOD (Astronomy Picture of the Day) API**
- **Primary Language:** *Java* with **Retrofit2, RxJava, and RxAndroid** for reactive programming
- **Key Features:** *Date-based search functionality* to explore historical astronomy pictures

Weather-Forecast

Java

- **Real-time weather application** for Android using **OpenWeatherMap API**
- **Location-based functionality** displaying current weather for user's residence automatically
- **Key Features:** *City search capability* to check weather forecasts worldwide
- **Permission handling** using Dexter library for smooth location access
- **Image Loading:** *Picasso library integration* for efficient weather icon rendering
- **Reactive programming** with RxJava2 ensuring responsive UI and data streams

Tic-Tac-Toe

Java

- **Classic game implementation** built natively for Android platform
- **Primary Language:** *Java* using **Android Studio** development environment
- **Two-player gameplay** with intuitive touch-based interface
- **Purpose:** *Entertainment and learning* - simple yet effective game logic implementation
- **Game mechanics:** Win detection, draw scenarios, and game reset functionality

EDUCATION		
B. Tech	10/2024 – Present	
Dr. A.P.J. Abdul Kalam Technical University	Greater Noida, Uttar Pradesh , India	
• Secretary, Techstar - Technical Society, 2024 to 2025		
High School	06/2022 – 06/2024	
National Institute of Open Schooling	Jamshedpur, Jharkhand, India	
• Final Grade: 67.4%		

SKILLS		
• Project Management		
• Content Writing		
• Problems Solving		
• Software Development		
• Web Development
